

# Elcometer 6310 PANTONE® Formula Guides

Elcometer 6310 PANTONE® Formula Guides

A simple and portable colour reference tool ideal for use by graphic designers, printers and alike.

Supplied as a coated and uncoated two-part set, each containing 1,114 PANTONE® colours.

This latest edition includes an RGB icon indicating colours achievable on screen.

Colours that bear both the RGB and CMYK icons are ideal choices for designs that will span cross-media.

### Appearance

Appearance measurement is a way of putting numbers to characteristics of surfaces that we see. The ability to independently quantify appearance allows for products to be similar whenever and wherever the product is manufactured or coated.

Colour is the ability of a material to absorb certain wavelengths of light and reflect others. For example a black material reflects no light across the complete colour spectrum, whereas a pure white material reflects all of the light. All other colours reflect light at different points of the spectrum. Colour is quantified by the material's Red, Green and Blue (RGB) values.

### Definitions:

RGB: Red, Green & Blue

CMYK: Cyan, Magenta, Yellow and Key (Black)

TECHNICAL SPECIFICATION	
<b>Dimensions</b>	Individual Guide: 235 x 42 x 36mm (9.25 x 1.65 x 1.42") Overall: 262 x 96 x 52mm (10.3 x 3.8 x 2.05")
<b>Weight</b>	Individual Guide: 384g (13.6oz) Overall: 817g (28.7oz)
<b>Part Number</b>	<b>K0006310M001</b> Elcometer 6310 PANTONE® Formula Guides, Two Part Set: Coated & Uncoated

## Related products

### Elcometer 6300 Colour Assessment Cabinets:

The Elcometer 6300 range of colour assessment cabinets, also known as light cabinets or colour matching booths, ensures accurate visual colour assessment and comparison.

Available with different light sources to simulate different conditions.

### Elcometer 407 Statistical Glossmeter:

A handheld gauge for measuring gloss at 20°, 60° and 85° and can be connected to the Elcometer Novo-Soft™ Software for further analysis and archiving.

### Elcometer 6210 RAL Colour Charts:

A system of reference colours enabling many industrial products to be identified, compared and classified.

Available either in the form of compact colour charts or in separate sheets of different sizes, with or without colourmetric identification, separately or in groups supplied in a file or a box.
