

# Elcometer 7210 Pocket Microscope

Elcometer 7210 Pocket Microscope

### Elcometer 7210 Pocket Microscope

The Elcometer 7210 is pocket size making it an extremely practical microscope for site inspections.

Giving x30 magnification and a built-in light source, the Elcometer 7210 Pocket Microscope is the ideal choice for close up investigation of coating defects and surface cleanliness.

### Inspection Accessories

During inspection sometimes the substrate or coating requires closer investigation. In dark or shaded areas, such as in ballast tanks or large production sites, etc., further investigation may require additional light.

It may be necessary to take a closer look at a specific area where you cannot get to. In this case an inspection mirror is required. For close up investigations the inspector may require magnification of the surface for a clearer understanding.

### At a glance

- Handy, practical microscope for site inspection.
- X30 magnification with built in light.
