- *Reference manual giving advice of the probable cause of coatings failures most often encountered in high pressure steel pipelines & pipeline coatings.*

Elcometer Macaw's Pipeline Defects

The aim of this publication is to illustrate the range of defects that may be encountered in high pressure steel pipelines and pipeline coatings.

The manual gives advice on the probable cause and significance of the defects and comments on appropriate remedial actions.

The defects included in this book encompass all aspects of high pressure steel pipeline manufacture, construction and operation, together with sections on coating and cathodic protection defects and examples of how defects interact to generate new or modified risks to pipeline integrity.

Publications

Elcometer offers a range of inspection and visual comparison manuals specifically for the coatings inspector.

Elcometer also provides a range of pictorial surface standards for blast cleaning incorporating standards for ISO, BS SIS, ISO and SSPC.
